

Aarav Mehta

Project Engineer FTA-1 | EXCELLENT MATCH

Email: candidate@samplemail.com | Phone: +91-9876543210 | LinkedIn: linkedin.com/in/samplecandidate | Bengaluru, India

Professional Summary

Electrical testing engineer with 5 years of post qualification experience in C&I; panel testing, traction panel testing, relay testing, FAT, SAT and customer acceptance testing.

Technical Skills

Control Panel Testing, Electrical Testing, Testing, Relay Testing, FAT, SAT, AutoCAD, MS Excel, Quality Assurance

Employment History

Senior Testing Engineer - Metro Power Controls (2021-Present)

- Performed control panel testing and electrical testing for C&I; and traction panels.
- Prepared FAT/SAT reports, test protocols and non-conformance reports.
- Handled relay testing, wiring verification, insulation checks and customer inspection support.

Testing Engineer - ABC Industrial Systems (2019-2021)

- Supported panel inspection, continuity testing, troubleshooting and final dispatch clearance.

Technical Project

Traction Control Panel Validation Project: Led electrical testing, control panel testing, wiring verification, relay testing, FAT, SAT, troubleshooting and customer acceptance activities for traction and C&I; panels. The work focused on reducing test failures and improving documentation quality.

Certifications

Electrical Safety, Relay Testing, Quality Assurance

Education

Full-Time B.Tech Degree in Electrical Engineering with 68% marks.
